

EXTRUDED SEALS

DURABLE SEALS RESIST ROT, MILDEW & CORROSION

ABOUT US

Located in Rochester, NY, SEM Specialty Products (SEM SP) specializes in producing extruded copolymer seals.

- Primarily a polypropylene based, with a wide variety of material options available
- Available in a variety of shapes, sizes, colors and mounting options
- Low coefficient of friction
- Great as a secondary seal to shed water, create a pressure drop, redirect air flow, etc.
- Can be used almost anywhere
- Many profiles available (see reverse side)
- Custom profiles are also available
